SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On February 17th Governor Newsom unveiled the SMARTER Plan as a path forward and the next phase of California's pandemic response. The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions. For more information: [California SMARTER](#)

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center (MHCC) as of 02/15/22 at 1620 hours:

- 8,259,026 (+54,855) total confirmed cases.
- 82,142 (+705) total deaths.
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

PUBLIC SAFETY POWER SHUTOFF (PSPS) SUMMARY

Severe Impacts

WEATHER KEY POINTS

02/21/22 - 02/27/22

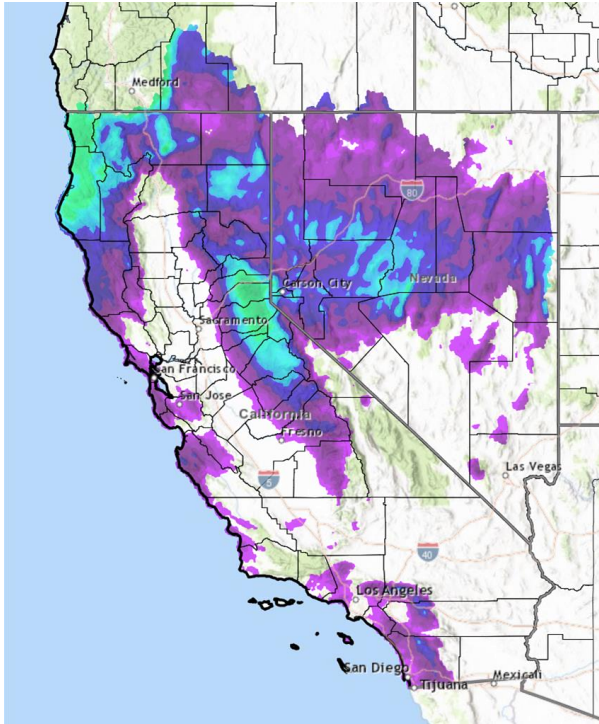

Monday - Sunday

- Strong wind gusts across the San Bernardino, Riverside, and San Diego County mountains and nearby desert valleys of southern California including Imperial County Monday into Tuesday.
 - Winds could blow down trees and power lines. Widespread power outages are possible. Blowing dust is likely and will reduce visibility.
- Periods of snow will impact the northern mountains Monday, bringing several inches of new snow above 2000 feet.
- Moderate to heavy snow will arrive across the northern Sierra Nevada Monday night and Tuesday leading to significant travel impacts across the passes.
- Thunderstorms are possible across southern California Tuesday evening and Tuesday night, bringing the potential for small hail and gusty erratic winds.
- Snow levels look to significantly lower across central and southern California late Tuesday, bringing some accumulating snow to the Grapevine, Tejon Pass and Tehachapi Pass.
- Precipitation amounts in many areas are expected to be on the light side, with no excessive precipitation impacts anticipated.
- Well below normal temperatures will move into the state Tuesday into Wednesday, bringing freezing temperatures to portions of the Central Coast and widespread across the San Joaquin Valley.
- Temperatures look to rebound next weekend with the return of offshore flow.

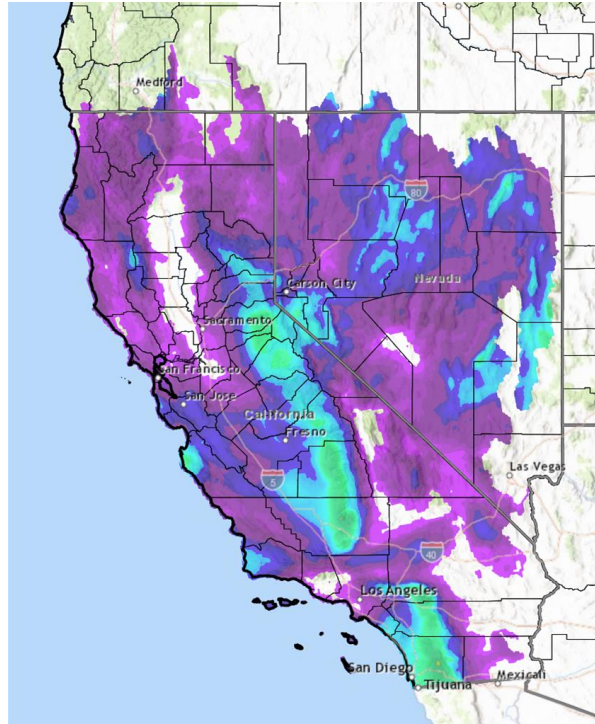

PRECIPITATION FORECAST

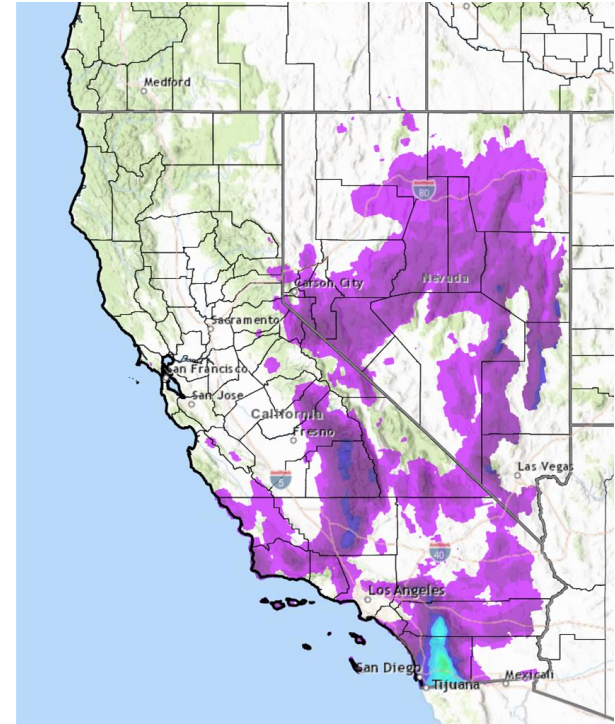

02/21/22 - 02/23/22

Monday

Tuesday

Wednesday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

WEATHER OUTLOOK

02/26/22 - 03/06/22

6-10 Day Outlook (February 26 - March 2)

Temperatures

- Above normal temperatures are favored for most of the state, except near normal temperatures are slightly favored across northeast CA and southeast CA

Precipitation

- Below normal precipitation is favored statewide

8-14 Day Outlook (February 28 – March 6)

Temperatures

- Near normal temperatures are favored for northern and central California; above normal temperatures are favored for southern California

Precipitation

- Below normal precipitation is favored statewide except for far northern California where near normal precipitation is expected.

WEATHER MAP
